WHAT EVER YOU NEED TO DISPLAY AND WHEREVER YOU NEED TO DISPLAY IT,
PADS 3.1 STANDALONE IS THE IDEAL SOLUTION FOR YOUR DIGITAL SIGNAGE APPLICATION.

PADS Standalone is a software bundle of applications that together form an easy-to-use yet highly powerful solution for standalone digital signage installations.

- Welcoming visitors to your premises
- Informing clients of your company's latest news
- Advertising new products or services
- Communicating with your employees
- Providing clear and accessible directions

DESIGN - PADS STANDALONE DESIGNER

DESIGN

A powerful and flexible design tool allowing you to design visually attractive PADS presentations.
Presentations can vary from text only to fully integrated multimedia displays with video, TV, Internet, RSS feeds or information from any database connection. This means that you can take information from an unlimited number of sources and combine it into a visually appealing, dynamic presentation.

Key features

- Design of presentations with ANY possible content
- Support of all industry standard picture and video file formats, Microsoft PowerPoint, Macromedia Shockwave, Flash, streaming video and TV
- Unequaled database connectivity features for display of real-time information
- Uses unique playback editor to help with archiving and retrieval of presentations
- Possibility to do behind-the-scene content management
- Integrated preview facility to have an instant look on how your presentation will run before being displayed

DISPLAY - PADS STANDALONE VIEWER

DISPLAY

The PADS Standalone Viewer application displays the designed presentations on your standalone display.

Key features

- Display of designed PADS presentations, if required on a 24/7 basis
- Works with any type of screen e.g. LCD, plasma, TFT, CRT, LED, video walls and supports any screen resolution
- Direct link with PADS Standalone Designer for easy content editing
- Playlist editor for simple, straightforward scheduling of your PADS presentations
- Built-in support for Kiosks either with or without touch screens
